

Zhong Yu

Senior Java and Web Developer

zhong.j.yu@gmail.com

(408)-375-8481

Summary

- Extensive knowledge and experience in Java and Web applications
- Talented in coding, architecture design, and problem solving
- Intelligent, creative, diligent, professional, hard working, team player

Experience

[Atypon](#)

Senior Developer

2001 - 2008

- Created a workflow system, including language, compiler, engine, and admin interface
- Created various frameworks, e.g. persistence, caching, and clustering
- Responsible for site performance, scalability and availability
- Implementing business features, e.g. identity management, access control, e-commerce
- Integrating with client systems through proprietary and industry standard protocols
- Working with clients to resolve issues, gather requirements, and write specifications

[Fermi Lab](#)

Research Assistant

1998 - 2000

- Frameworks and algorithms for real-time collider data streaming and analysis
- Collider magnetic field measurement, analysis, and programming interface

Open Source

[Bayou.io](#)

Solo Developer

2014 - 2015

- Async HTTP library and utilities, with simple APIs, rich features, and [high performance](#)

Miscellany

- some [articles](#) I wrote; my [stackoverflow](#) and [github](#) profiles
- a discussion [group](#) on Java language; a [library](#) of Java types
- contributor to [RFC-6455](#) and [RFC-7230](#)

Education

- 2001 - MS in Computer Science - Loyola University Chicago
- 2000 - MS in Physics - Northwestern University
- 1997 - BS in Physics - Beijing University
